## Lanyards

A comprehensive range of lanyards available in a variety of colours, fabrics, fixings and breakaway features. A comfortable solution for displaying id.

A variety of plain lanyards and an extensive range of pre-printed lanyards are available from stock.

### Stock plain 10mm lanyards

Black plastic breakaways are standard on all our 10mm flat polyester lace plain lanyards. We offer a choice of fixed metal lobster clip or black plastic slide clip which allows the breakaway to be positioned where required.

### Stock deluxe 15mm lanyards

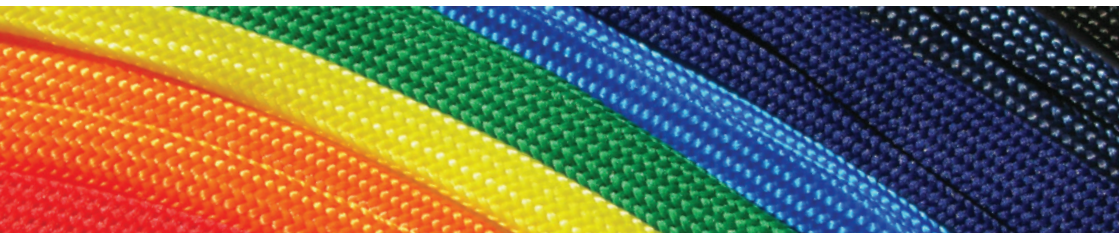

Black plastic breakaways are also standard on our 15mm soft flat tubular lace lanyards. These lanyards are supplied with a durable metal swivel hook attachment.

## Custom printed lanyards

We can also create customised lanyards with your brand logo, style and colour for a more professional look, or for a particular event/convention with your chosen message.

Our [personalised](#) lanyards are available in a choice of screen printed/dye-sublimation and woven.

[Screen printed](#) text onto satin or polyester for an economical choice for a personalised lanyard. For best results choose a base lace with a contrasting text colour. Minimum only 100 lanyards.

[Dye-sublimation](#) printed lanyards offer a high quality, durable print which is smooth to the touch. Minimum only 50 lanyards.

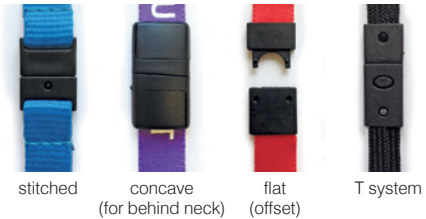

[Woven](#) personalised lanyards provide a long-lasting, clearly branded eye-catching product. Depending on your design, choose between a robust hard-wearing lanyard, or a more luxurious finer weave lightweight lanyard, suitable for creating a more complex design.

## Breakaways

We recommend fitting safety breaks to all customised lanyards - if the lanyard is pulled or gets snagged, the breakaway releases. This is essential for complying with health & safety requirements. [Colour: black, white breakaways available on request.](#)

[We can supply multiple fittings if required for extra safety - ideal for use in high risk industries.](#)

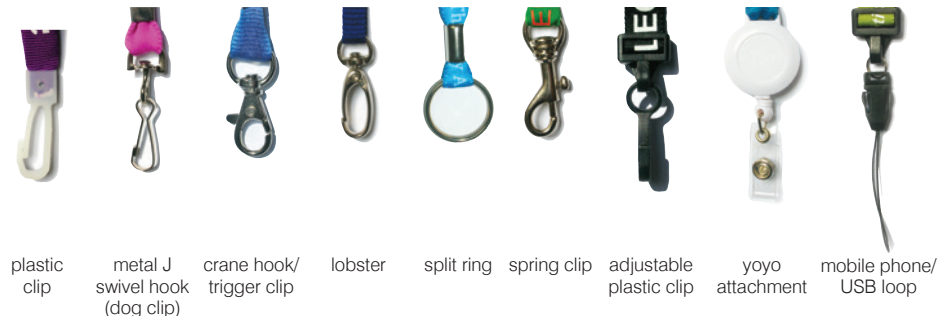

[All our standard lanyards are fitted with a safety breakaway.](#)

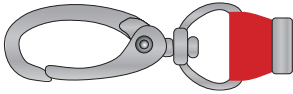

## Attachments

Our lanyards can be fitted with a wide range of attachments. In addition to attachment to ID cards, wallets, or yoyos, we can also supply multiple attachments on 1 lanyard e.g. USB drive loop and card. Also available for keys, mobile phones, USB and key fobs.

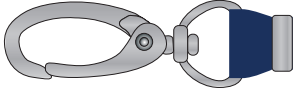

[Other attachments available on request.](#)

## Yoyos (badge reels)

Whether small, large or heavy duty, we have a vast range of yoyos available in a variety of colours to suit any requirement. These help keep ID passes secure, discreet and accessible to swipe for door entry systems.

We can personalise your yoyo with a stylish and durable dome containing your logo for a professional corporate image.

### Yoyos

Our yoyos/badge reels are ideal for active cards - just pull towards the card reader and the cord then retracts into the reel when released.

We have a wide range of yoyos for any purpose, from heavy duty yoyos used within hospitals to lightweight clip for general use. Heavy duty and lockable yoyos are useful for carrying other items such as keys and box cutter.

#### Medium duty

Re-inforced plastic strap attachment

- black/blue
- 32mm diameter reel
- 85cm cord
- 25mm imprint area

#### Available:

**Black:** ITM-00000975

**Blue:** ITM-00000218

**White:** ITM-00001410

Packed in qty of 100

#### High quality

Re-inforced strap attachment

- 33mm diameter reel
- 80cm cord
- 25mm imprint area

#### Available:

**Black:** ITM-00003266

Packed in qty of 100

#### Chrome heavy duty

Chrome with re-inforced strap or key ring

- 43mm diameter reel
- 91cm cord
- 30mm imprint area

#### Available:

**Chrome:** ITM-00000215

Packed in qty of 100

## Customised yoyos

We can create a customised yoyo with your brand logo, style and colour for a more professional look, or for a particular event/convention with your chosen message.

↑  
dome  
imprint

## Clips and Chains

Whatever way you want to display your identification, we have the right product for you.

We have a vast range of clips, chains and fixings which help keep ID passes secure, visible or discreet (depending on your requirement) and accessible to swipe for door entry systems.

These are available in a variety of colours for all industry requirements, including healthcare and catering infection control options.

### Clips

A metal clip to display an ID card - with a moulded nylon strap. Available in several styles and budgets.

Packed in quantities of 100

**Flip top  
re-inforced strap**  
ITM-0000028

**Metal crocodile

MIFARE CHIP CARDS  
PROXIMITY CARDS  
KEY FOBBS

## Access cards and key fobs

Access cards and key fobs ensure that only the authorised visitors/employees are on site at the appropriate time or for the event that you are hosting.

### Choice of cards and key fobs

We have a number of options available for ID and technology cards. We can supply plain or pre-printed, self adhesive and coloured cards. All our cards are suitable for customised printing on site.

If identification is not required only access, e.g. to multi tenanted buildings, then we can supply a variety of key fobs. Extremely robust and versatile, key fobs have many benefits including a lifetime manufacturer's warranty.

# NEED PRINTED CARDS?

Whatever the style of your card, we can provide it - from plain plastic to 'smart' cards, embossed to encoded cards. **Need a small volume?** No problem - use our bureau service.

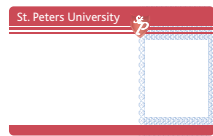

## Printed cards

We can accommodate any request to suit a huge variety of applications using a wide range of technologies. We can design and print from small bespoke volumes up to large generic card orders for personalisation later.

To help you make the right choice for your requirements we have given a guide to the different advantages of each card printing service.

printed card advantages	pre-printed	bureau	on-site
finest quality print	•		
cost effective for high volume print runs	•		•
cost effective for low volume print runs		•	•
pantone colour matched	•		
complex imagery and designs	•		
full design service	•	•	
hassle free - we do the work	•	•	
saves wear and tear on your printer	•	•	
frees up your company resources	•	•	
full control			•
instant issue of cards	•	•	•
flexibility to change design instantly			•
flexibility to change database instantly			•
option of printing onto preprinted stock		•	•
visible security watermark - Holokote		•	•
integrated security features	•		

example: pre-printed generic card.

Complex designs, pantone matched colours can all be achieved with a high quality pre-printed card.

example: pre-printed generic card personalised on demand.

Details such as text, membership numbers, barcodes, expiry dates can be added later.
